Hourly generation and day-ahead price

DURING THE 28 JULY – 12 AUGUST 2026 HEATWAVES

Hours are local; each panel has its own scale. Generation stacks above zero, net exports below it.
Greece's exports are understated: ENTSO-E reports few of its Albanian and Italian flow hours.

Source: ENTSO-E Transparency Platform, accessed August 2026 (generation per production type, total load, physical cross-border flows, day-ahead prices); ERA5 via Open-Meteo, August 2026. E3G analysis.
