Hourly generation and electricity prices

28 JULY – 12 AUGUST 2026 HEATWAVE

Hours are local. Hungary and Romania share a scale; France and Greece have their own.
Net exports fall below zero. Greece's exports are understated by patchy ENTSO-E border reporting.

Source: E3G analysis based on ENTSO-E Transparency Platform, July–August 2026 (generation per production type, total load, cross-border flows, day-ahead prices) and ERA5 via Open-Meteo.
